MEMORANDUM FOR: Senior Interagency Group-Intelligence

SUBJECT: Summary of Conclusions - SIG(I) on National Intelligence
Topics (NITs), 15 June 1981

1. The SIG, chaired by Admiral Inman, met on 15 June 1981 to consider the draft National Intelligence Topics of Current and Continuing Interest developed by an Interdepartmental Group-Intelligence under the leadership of John McMahon. Participants agreed on the following points:

o The changes specified in Attachment 1 were made to the draft NITs of Current Interest #2, 7, 12, 22, 23, 27, 32, and 33.

o The priority for draft NIT of Continuing Interest #IV.1.e. was changed from 4 to 3.

2. In response to an observation by the representative from the Department of State about apparent inconsistencies among some requirements lists, the Chairman noted that such lists served different purposes and groups but that a closer correlation between the NITs, the Priority Countries list, and DCID 1/2 may need to be examined. The Chairman also noted that international terrorism and Soviet activities in the Third World had been given greater prominence in this year's NITs, which was appropriate because of the circumstances surrounding these two issues.

3. Following the substantive discussion, the Chairman invited suggestions from the members for topics to consider at future SIG-I meetings. Admiral Inman indicated that such suggestions should be submitted to the Director, Intelligence Community Staff, who is serving as the Executive Agent for the SIG-I.
